EDUCATION

Bachelor of Computer Science and Artificial Intelligence — Information Systems

Faculty of Computers and Artificial Intelligence, Cairo University, Giza, Egypt

2022 – 2026 (Fresh Graduate) | GPA: 3.28

Relevant Courses: Data Structures, Algorithms, Object Oriented Programming, Advanced Software Engineering, Database Management, Data Warehouses, Web Design, Big Data, Data Mining

PROJECTS

LearnoLab — Bilingual Mastery-Based Learning Platform learnolab.com *React 19, TypeScript, Django 5.2, DRF*

- Graduation project (5-person team): a bilingual educational platform with classrooms, spaced-repetition practice, and analytics dashboards for both educators and students, built to support B2B and B2C deployment.
- Contributed across the full stack; owned all UI/UX design and implemented roughly 90% of the frontend.

GamerMajlis — Gaming Community Platform *React, Vite*

- Built the frontend for a gaming community platform supporting clip and discussion posting, event and tournament organization, an AI chatbot guide, a marketplace, direct messaging, and Discord integration.

Banking Data Warehouse Automation *SSIS, SQL, Visual Studio*

- Built a full ETL pipeline with SSIS to extract, transform, and load banking data into a warehouse.
- Scheduled and deployed SSIS packages for regular operation and automated data synchronization.

SKILLS

Frontend: React, TypeScript, JavaScript, Vite, HTML, CSS

Backend & APIs: Django, Django REST Framework, REST APIs, Spring Boot, Spring Security, Laravel (basic)

Data: SQL, SSIS, Data Warehousing (ETL, dimensional modeling)

Languages: C++ (strong), Java, Python

Tools: Git, GitHub, VS Code, Docker

Soft Skills: Teamwork, Adaptability, Problem Solving

Languages Spoken: Arabic (Native), English (Fluent)
